Relevant Experience

Developer – **The Age Collective** June 2023 – Present

- The only developer in a team of three building all the digital products.
- Successfully secured government funding for the project.

Full-Stack Developer – **LaundryWell** May 2021 – Apr 2023

- Worked on the React rewrite exclusively utilizing Next.js and React-Query optimizing our performance by 53%.
- Built RESTful APIs that served data to our JavaScript frontend based on dynamically chosen user inputs that handled over 100+ concurrent users.
- Aided with backend scaling to fix server overload during peak usage.

Solutions Architect – **Droplinked** Mar 2022

- I contributed significantly to infrastructure planning and frontend development. Additionally, I collaborated with clients like Crashpunks NFTs.

Software Engineer – **Gigturbo** Dec 2019 – Jan 2021

- Lead the frontend engineer team dealing with the transition to React from Angular.
- Built the main onboarding flow for new users joining the platform.
- Leveraged OpenAI's language models to experiment and build multiple products such as a chatbot and recommendation engine.

Software Developer Intern – **Intuit** May 2018 – Aug 2018

- Worked on the QuickBooks platform mainly optimizing our dashboard React code for thousands of concurrent users.
- Optimized our outgoing network calls by 33% by using techniques such as caching, debouncing, and batching.
